W-010-200

Ms. Stacy S. Gotham
California Regional Water Quality Control Board
415 Knollcrest Drive, Suite 100
Redding CA 96002

Dear Stacy:

Subject: Pretreatment Program Quarterly Report for the First Quarter 2010 (NPDES Numbers CA0079731 & CA0082589)

All Categorical Industrial Users met Federal Pretreatment Standards during the first quarter of 2010. The compliance status of all Significant Industrial Users (SIUs) is listed on the attached sheet.

Aramark Industrial Laundry will cease their washing operation by the end of May 2010. The facility will still be used for collection of soiled garments and distribution of clean garments. Laundry washing will be done in their Sacramento plant and all of their surplus wash chemicals will be hauled for use at that location. Their final compliance deadline is June 30, 2010. Their permit will not be renewed.

The United States Forest Service (USFS) Air Attack Base was issued a permit on April 1, 2010. The plumbing changes have been completed with the exception of installing a flow meter and sampling station. The compliance schedule in their permit requires they complete a flow evaluation and install the equipment prior to the 2011 fire season.

QM5 discharged wastewater from one of their treatment tanks on March 31, 2010, that caused foaming at the Stillwater WWTP on April 1, 2010. This event did not cause any effluent violations at the WWTP. A correction notice has been sent which includes requiring an update to their slug discharge control plan.

TrafTec is currently moving to a new facility. They have submitted a new permit application and their zero discharge phosphating permit will be reissued for the new location.

PG Environmental completed our Pretreatment Compliance Inspection on April 14, 2010.

"We certify under penalty of law that this document and all attachments were prepared under our direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on our inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of our knowledge and belief, true, accurate, and complete. We are aware there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

Please contact Marcia Ames at (530) 224-6049 or mames@ci.redding.ca.us if you have any questions.

Sincerely,

Dennis McBride
Wastewater Utility Manager

Sincerely,

Marcia Ames
