Ms. Stacy S. Gotham  
California Regional Water Quality Control Board  
415 Knollcrest Drive, Suite 100  
Redding CA 96002

Dear Stacy:

Subject: Pretreatment Program Quarterly Report for the Third Quarter 2010 (NPDES Numbers CA0079731 & CA0082589)

All Categorical Industrial Users met Federal Pretreatment Standards during the third quarter of 2010. The compliance status of all Significant Industrial Users (SIUs) is listed on the attached sheet.

Changes to the Redding Municipal Code were adopted on July 15, 2010. A revised ERP was approved by City Council Resolution on June 15, 2010.

The United States Forest Service (USFS) Air Attack Base was issued a permit on April 1, 2010. The plumbing changes have been completed and the spill control BMPs have been effective in preventing upsets at the Stillwater Wastewater Treatment Plant. An extension has been granted in their compliance schedule for completing a flow study and submitting plans for the installation of a flow meter and monitoring station. The USFS expected to have an engineering contract in place by the end of June 2010, but due to delays in the federal contract process, the contract is expected to be in place by the end of October 2010. The items do not affect their final compliance deadline prior to the 2011 fire season.

QM5 discharged wastewater from one of their treatment tanks on March 31, 2010, and caused foaming at the Stillwater WWTP on April 1, 2010. This event did not cause any effluent violations at the WWTP. QM5 completed their correction notice items prior to the August 31, 2010, deadline. This business is scheduled to close in October 2010.

TrafTec moved to a new facility. They were issued a new zero discharge phosphating permit on August 25, 2010.

"We certify under penalty of law that this document and all attachments were prepared under our direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on our inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of our knowledge and belief, true, accurate, and complete. We are aware there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

Please contact Marcia Ames at (530) 224-6049 or [mames@ci.redding.ca.us](mailto:mames@ci.redding.ca.us) if you have any questions.

Sincerely,

  
Dennis McBride  
Wastewater Utility Manager

Sincerely,

  
Marcia Ames
