

# WIPES CLOG PIPES

Disposable does not always mean flushable.

Cleaning wipes and baby wipes do not dissolve, but they do get stuck in sewer pipes and sewer pumping equipment.

Be kind to your  
plumbing.

Throw used wipes in  
the trash.

Costs for hiring a plumber to un-clog your private sewer line typically ranges from \$75.00 to \$350.00.

These costs do not include the time it takes you to clean up the sewage that may have backed up or the time spent calling and waiting for a plumber.

Please share this information with everyone who cleans your home or business.

In addition, kitchen grease, kitty litter, plastic, and latex items can all clog pipes and should be bagged or contained and placed in the trash.
